**RE: Dominion Carolina Gas Transmission
Columbia to Eastover Pipeline Project
Hydrostatic Test Water Discharge NOI Submittal**

To Whom It May Concern:

Dominion Carolina Gas Transmission, LLC (DCG) is proposing the construction of an 8-inch steel gas transmission line which will span approximately 29 miles in lower Richland and Calhoun Counties in South Carolina, known as the Columbia to Eastover Project (Project). This new line is needed to provide natural gas to the International Paper facility in Eastover, SC to support its conversion from coal-fueled operations, and is targeted to be in service by the summer of 2016.

A small portion of the pipeline route, approximately 8%, resides in Calhoun County with the remaining 92% located in Richland County. The project will disturb approximately 37.4 acres of land within Calhoun County, which will include areas for the construction of the main pipeline route, additional temporary workspaces and temporary and permanent access roads. A portion of the proposed temporary and permanent access roads, in addition to the proposed pipeline, will encroach on privately maintained roadways.

For your information, the following additional permits or approvals will be applied for and obtained for this project, prior to construction:

Permit/Approval	Administering Agency
Certificate of Public Convenience and Necessity	Federal Energy Regulatory Commission
Section 404 Wetland Permit	U.S. Army Corps of Engineers - Charleston District
Endangered Species Act - Section 7 Consultation	U.S. Fish and Wildlife Service
	(NOAA) National Marine Fisheries Service
Notice of Intent (NOI) to Discharge Storm Water Associated with Construction Activities	South Carolina Department of Health and Environmental Control
Notice of Intent (NOI) NPDES General Permit for Hydrostatic Test Water Discharges	South Carolina Department of Health and Environmental Control
Section 401 Water Quality Certification	South Carolina Department of Health and Environmental Control
State Endangered Species Consultation	South Carolina Department of Natural Resources
National Historic Preservation Act Section 106 Consultation/Approval	South Carolina Department of Archives and History
Tribal Consultations	Eastern Band of Cherokee Indians Catawba Indian Nation
Application for State Easement to Tidelands or Submerged Lands (Navigable River Crossing)	South Carolina Budget & Control Board
State Road Crossing Permits (Utilities)	South Carolina Department of Transportation
State Road Crossings Permits (Driveways)	South Carolina Department of Transportation
Railroad Crossing	Norfolk Southern Railway
Railroad Crossing	CSX Transportation
Electric Transmission Crossing	SCE&G
Electric Transmission Crossing	Santee Cooper
Gas Transmission Crossing	SCE&G

DIVISION

This project involves the construction of natural gas transmission pipelines and facilities that will be incorporated into an existing natural gas transmission network that moves natural gas across state boundaries. Because of the nature and scope of this project, the Federal Energy Regulation Commission (FERC) will be a regulating authority for the project. Once all approvals and permits are secured and construction activities begin, FERC mandated environmental inspectors

will be on site full-time to monitor construction activities during the full construction period, including environmental impact areas and sediment and erosion controls for both compliance and correction as needed.

Total test water discharge volume is calculated to be 533,492.3 gallons with no single discharge to exceed 415062.9962 gallons.

DCG is submitting the attached Hydrostatic Test Water Discharge Permit for your review and approval. Enclosed in the online submittal for your consideration is the following:

- 1 – Signed Notice of Intent (NOI) for NPDES General Permit for Hydrostatic Test Water Discharges SCG 67000
- 1 – Exhibit of Hydrostatic Test Water Discharge Locations (PDF file)

DCG appreciates your review of the enclosed information. Should you have any questions, please contact Mr. Richard Kopec by phone at (803) 726-3707, or by email at richard.kopec@carolinagasttransmission.com.

Please send response to:
